TSE Belgeleri

Certification

EN 14322 Standart: İç mekanlarda kullanılan melamin yüzü levha ürünleri için belirlenen bir standart olup, yüzey özelliklerini ve boyut toleranslarını kapsar. Bu standart, ürünlerin Avrupa birliğince belirlenen gerekliliklere sahip olarak üretildiğini belirtir.

EN 14322 Standart: This standart specifies the surface requirements and dimensional tolerances for melamine faced boards for interior uses. It shows that melamine faced mdf/pb are produced based on European Union requirements.

MR (Neme Karşı Dayanım Sınıfı) Belgesi: MR üretimleri Mdf/Sunta ve Mdf/am/Suntalam ürünlerimizde yapılmaktadır. Detaylı bilgi için satış temsilcimizle irtibata geçebilirsiniz.

Moisture Resistance(MR) Certification: MR production is valid for Mdf/Pb and Melamine Faced Mdf/Pb. Please contact with sales responsible for further information.

FR (Yangına Karşı Dayanım Sınıfı) Belgesi: FR üretimleri Mdf/Sunta ve Mdf/am/Suntalam ürünlerimizde yapılmaktadır. Detaylı bilgi için satış temsilcimizle irtibata geçebilirsiniz.

Fire Resistance(FR) Certification: FR production is valid for Mdf/Pb and Melamine Faced Mdf/Pb. Please contact with sales responsible for further information.

Migrasyon Belgeleri

Mdf/am/Suntalam yüzeylerin, gıda ve türevleriyle teması durumunda yapılan testlerde, belirlenen koşullar altında üründen gıdaya zararlı madde geçişi olmadığını kanıtlayan raporlardır.

These are reports that prove, under specified conditions, there is no harmful substance migration from the product to food in tests conducted on melamine faced Melamine Faced Mdf/Pb surfaces when in contact with food and its derivatives.

Antibakteriyel Belgeler

ISO 22196 standardına göre düzenlenen bu belgeler, ürün yüzeylerinin mikroorganizma oluşumuna karşı dirençli olduğunu gösterir. Kullanım kılavuzlarında belirtilen temizlik ve bakım yönergelerine uyulduğu süreçte, ürünlerin hijyenik kullanımına olanak sağlar.

These documents, prepared in accordance with the ISO 22196 standard, demonstrate that the product surfaces are resistant to microorganism growth. As long as the cleaning and maintenance guidelines specified in the user manuals are followed, they ensure the hygienic use of the products.
